

## Your marking, calibrated to your standards.

Research-grade marking AI built with UK university partners. Pilot deployments running now.

# ~15x

**FASTER PER PAPER**  
3-batch calibration to your standards

### — THREE WAYS INSTITUTIONS USE IT

#### Bulk first-pass

200 papers — graded per-criterion in the time it takes to make a coffee.

#### Team calibration

Cross-marker consistency check + per-criterion adjustments.

#### Second marker

Transparent disagreements + evidence trail for external examiners.

### — HOW IT WORKS

# 1

Upload mark scheme

# 2

Submit papers

# 3

Correct + calibrate

# 4

Watch gap close

### — MANUAL VS. MARKING AGENT

METRIC	MANUAL	MARKING AGENT
Time per paper	~30 min	<2 min
Calibration	Weeks	3 batches
Audit trail	Hours per module	Seconds per export

### — BUILT FOR TRUST

#### UK DATA

Azure UK South. Stays UK.

#### DETERMINISTIC

Temp = 0. Audit per paper.

#### RESEARCH-GRADE

Built with HE partners.
